

Siggi Gunnarsson

Ceo at Ístex, íslenskur textílídnaður

Siggi will talk about how it is possible for Ístex to wash all the wool, they produce, compared to most other big yarn companies, who send the wool abroad for scouring. He will talk a bit about their wool collection, how it works, and what wool they use for knitting yarn, and tell how the other wool is used. Ístex is collecting most of the Icelandic wool.

Title: Washing Wool in the North Atlantic
